BD-HP21U
AQUOS® Blu-ray Disc™ Player

AQUOS

AQUOS LINK™

FULL HD 1080P

Now you can enjoy the best of 1080p video on your AQUOS® LCD TV. Especially designed to work with AQUOS LCD TVs, the BD-HP21U AQUOS Blue-ray Disc™ Player provides seamless operability via the AQUOS LINK™ function through the HDMI™ connection. Performing as if it were all one system, the BD-HP21U's Quick Start feature lets you enjoy gorgeous Blu-ray Disc® video with the touch of a button in as little as 10 seconds*[1]. With HDMI™ outputs and 1080p as well as DVD up-conversion, you'll enjoy full digital high-definition video and high-fidelity audio. JPEG Digital images can be viewed as a slide show from recorded CD-RW/R with digital images.

Features:

HDMI™ Output – Simple One Cable Connection A one cable connection carries complete digital audio and video connection between your HDTV and the BD-HP21U player for the best high definition video and the highest fidelity audio in home theater today. Blu-ray Disc™ technology brings the multiplex experience right to your home.

Full HD Resolution – An Amazing Home Theater Experience in the Comfort of Your Home The Blu-ray Disc™ format has full 1080p resolution capability – that's the maximum picture resolution available today. 1080p=1,080 lines of vertical resolution, progressively scanned.

High Fidelity Audio – Real Life-Like Sound Blu-ray technology lets you take advantage of the latest surround sound formats such as Dolby® TrueHD™. This means you will enjoy high quality lossless 7.1 Channel digital surround (48kHz Only) that is bit for bit the equivalent of a master recording.

HDMI™ Up-scaling – Backwards Compatible Even your existing standard definition DVD library can look better than ever because Blu-ray Disc™ players are backwards compatible with your DVDs. By optimizing standard DVD playback signals to 1080p (when displayed on a 1080p capable HDTV with HDMI™ technology), the BD-HP21U can deliver more picture and sound quality.

JPEG Viewing – Digital images recorded onto a CD-RW/R can be viewed in a slideshow format on screen, delivering both still and video images for greater versatility.

AQUOS LINK Function – Seamless Operation among Sharp Audio Video Products with One Remote Control Why use two remotes when you can use one? The AQUOS LINK function allows you to control both your AQUOS LCD TV and your AQUOS Blu-ray Disc™ Player together. When you connect your AQUOS LCD TV to the Blu-ray Disc™ Player via an HDMI™ connection, you will have seamless interoperability between your AQUOS LCD TV and BD-HP21U Blu-ray Disc™ Player.

Quick Start – Enjoy Movie Content Quickly without Delay A proprietary Sharp technology allows you to enjoy viewing high definition content on your big screen quicker than most other Blu-ray Disc™ players. Unlike many other Blu-ray Disc™ players the BD-HP21U has an impressive startup time allowing you to begin watching your movies in approximately 10 seconds*[1].

x.v.Color – Provides color information for vivid images in over a billion color combinations. x.v.Color provides color information to recreate native color combinations, bringing to you the millions and millions of colors that occur in everyday life, taking your viewing experience to a new level.
